Kathryn and Jim,

Attached are summarized ESA-related comments for your review and response. Please keep in mind these are comment *summaries* from the letters. I have also included the original comment letters. As I mentioned during the meeting today, for the NMFS comments, the intent was to summarize the comments made in the cover letter and in “Enclosure 1”. The other attachments (which I have also attached) relate back to the prior ESA Consultation information for Oregon and Idaho, and we did not include these comments.

I can walk you through these attachments if you would like. Thanks!
